*"Why Tenerife" initiative, Canary Islands Special Zone (ZEC),
The Chamber of Commerce, Industry and Navigation
of Santa Cruz de Tenerife,
The Spanish-Czech Chamber of Commerce
and The Czech Bar Association are delighted to invite you to*

INTRODUCING THE TAX BENEFITS OF TENERIFE: THE CANARY ISLANDS SPECIAL ZONE

Do you offer tax strategies and optimization to your clients? Is tax policy the field of your expertise? If so, we kindly invite you to an informative seminar where the local experts and authorities will explain the unique tax benefits that Tenerife has to offer for your clients.

The European Commission approved the extension of the Canary Islands Special Zones benefits until the end of 2032. These include, among other things, reduced corporate income tax rate of a pleasant 4 % or corporate income tax rebate of up to 90 % provided that the amount is reinvested in fixed assets in the Canary Islands.

Our speakers and representatives of public authorities, who have an expertise in Tenerife's tax and law environment, will provide information and advice about the administrative and legal conditions, tax advantages of the territory and practical advice on setting up a business in the island. Tenerife is committed to diversifying its economy, aiming to promote sectors such as digital economy, creative and cultural industries, the blue economy or renewable energies.
